INCLUDED HARDWARE

8x

1/4"-20 X 3/8"
Button Head

8x

1/4"-20
T-Nut

INCLUDED PARTS

2x

INSTALLATION

1. Start by sliding (2) of the provided T-nuts into the slots on each of the smaller sides of the crossbar. If you have already installed the crossbar into your roofrack, you will need to take the bolts out of that end in order to be able to lift it out enough to slide the T-nuts in. Then place the awning mount over the cross bar and bolt it into the T-nuts using the provided 1/4"-20 X 3/8" button heads. Once you have one of the mounts installed, repeat this same process for the other at the correct distance for your awning. You may need adjust the position of the cross bars to fit your awning.
